FOR IMMEDIATE RELEASE:

gSource Announces Award of CE Mark Certificate for Surgical Instruments

Emerson, NJ (February 26, 2018) --- gSource, LLC, a leading provider of German crafted and U.S. machined surgical instruments, is pleased to announce the company has received CE mark approval for Reusable Handheld Surgical Instruments.

The CE mark certifies that the instruments meet the strict EU standards of manufacturing and quality control in accordance with the European Communities Council Directive 93/42/EEC. The company is poised to begin immediate distribution worldwide.

"This is an important milestone in our mission of putting the finest instruments into the hands of surgeons and their teams around the world," said Gerd Billmann, President of gSource. "We are pleased to be able to market and sell our products to the European surgical community and other key markets where there is a significant and growing demand."

About gSource

Founded in 1999, gSource is committed to putting the finest instruments into the hands of surgeons and their teams. Whether crafted from German surgical stainless steel, or machined from U.S. surgical stainless steel, gSource instruments are recognized by their finely finished surface and are designed to perform with precise surgical function. They are also conceived to be affordable. It is this combination that distinguishes the gSource brand.

More than a source for quality instrumentation, gSource is an advocate for the orthopedic and spinal community. The company is relied upon to provide superior instrumentation for surgical procedures, and do so in a time-critical fashion. With the ability to create entirely new instruments in a timely and economical manner, and an inventory of over 4,100 patterns available for same day shipment, many world leaders and innovators in orthopedics and spine have found in gSource a trusted and reliable partner. The company is ISO 13485:2003 Certified. For more information, visit <http://www.gSource.com>
