FOR IMMEDIATE RELEASE:

gSource celebrates 20 years of providing the highest quality surgical instruments

Emerson, NJ (August 1, 2019) --- A source for surgical instruments worldwide, gSource is celebrating its 20th anniversary on October 1st, 2019. Located in Emerson, New Jersey, the company sells surgical instruments and medical devices primarily crafted from German stainless steel to hospitals, surgical centers and medical device companies internationally.

An engineer with considerable experience in Quality Assurance, Founder and President of gSource, Gerd Billmann, came to an important conclusion just over 20 years ago. "Not all instruments are created equal," says Billmann. "A better instrument helps a surgeon perform at his or her best. gSource provides better instruments." High quality standards have allowed gSource to not just sell, but create innovative instruments based on feedback from surgeons and their teams. "I am proud of the entire team at gSource who dedicate themselves to customers and their specific needs. It is only because of those valued customers that we are able to reach this milestone."

About gSource

Founded in 1999, gSource is committed to putting the finest instruments into the hands of surgeons and their teams. Whether crafted from German surgical stainless steel, or machined from U.S. surgical stainless steel, gSource instruments are recognized by their finely finished surface and are designed to perform with precise surgical function. They are also conceived to be affordable. It is this combination that distinguishes the gSource brand.

More than a source for quality instrumentation, gSource is an advocate for the orthopedic and spinal community. The company is relied upon to provide superior instrumentation for surgical procedures, and do so in a time-critical fashion. With the ability to create entirely new instruments in a timely and economical manner and an inventory of over 4,100 patterns available for same day shipment, many world leaders and innovators in orthopedics and spine have found in gSource a trusted and reliable partner. The company is ISO 13485:2016 Certified. For more information, visit <http://www.gSource.com>
