FOR IMMEDIATE RELEASE:

### **gSource achieves ISO 13485:2016 Recertification**

Emerson, NJ (November 27, 2018) --- gSource, LLC is pleased to announce the achievement of recertification to the 2016 revision of ISO 13485 for their quality management system, specific to medical devices. The Certificate of Registration was awarded to gSource by the British Standards Institute (BSI).

“The recertification represents our continued commitment to putting only the finest instruments into the hands of surgeons and their teams. It also reassures our customers that we continue to have the quality management system in place for the instrumentation we provide”, commented Gerd Billmann, President.

#### **About gSource**

Founded in 1999, gSource is committed to putting the finest instruments into the hands of surgeons and their teams. Whether crafted from German surgical stainless steel, or machined from U.S. surgical stainless steel, gSource instruments are recognized by their finely finished surface and are designed to perform with precise surgical function. They are also conceived to be affordable. It is this combination that distinguishes the gSource brand.

More than a source for quality instrumentation, gSource is an advocate for the orthopedic and spinal community. The company is relied upon to provide superior instrumentation for surgical procedures, and do so in a time-critical fashion. With the ability to create entirely new instruments in a timely and economical manner, and an inventory of over 4,100 patterns available for same day shipment, many world leaders and innovators in orthopedics and spine have found in gSource a trusted and reliable partner. The company is ISO 13485:2016 Certified. For more information, visit <http://www.gSource.com>
