FOR IMMEDIATE RELEASE:

Emerson, NJ (June 12, 2023) — We are thrilled to announce the launch of our new line of single-use instruments designed to meet the needs of healthcare providers and patients alike. This line features a range of 25 general surgery instruments that are not only affordable, but also reliable and efficient. With a focus on infection and safety control, these high-quality instruments are designed to be used only once, to reduce the risk of cross-contamination and infection. Our single use instruments are conveniently sold in packs of 10 with each instrument individually packaged, sterilized and ready to use. We believe that this new line of instruments will revolutionize the surgical industry and improve the overall quality of patient care.

About gSource

gSource was founded in 1999 and is committed to putting the finest instruments into the hands of surgeons and their teams. Crafted from German surgical stainless steel, and recognized by their finely finished surface, gSource instruments are designed to perform with precise surgical function. They are also conceived to be affordable. It is this combination that distinguishes the gSource brand.

More than a source for quality instrumentation, gSource is an advocate for the orthopedic community. The company is relied upon to provide superior instrumentation for spinal and orthopedic procedures, and do so in a time-critical fashion. With the ability to create entirely new instruments in a timely and economical manner, and an inventory of over 4,800 patterns available for same day shipment, many world leaders and innovators in orthopedics and spine have found in gSource a trusted and reliable partner.
